EXPERIENCE

Junior UX Designer, MountainSeed

May 2024 - October 2024

- Developed user journey maps, flowcharts, data/ functional requirements, and use case scenarios
- Lead design critiques in meetings with data operations, development, sales, and project management
- Produced wireframes and mid-high fidelity prototype screens
- Collaborated with the senior data analyst to understand data integrity and ingestion processes
- Produced various sets of data visualizations for different analysis perspectives and visualization tools
- Streamlined production handoff with usage guidelines, and specifications for interactions and visuals
- Delivered heuristic usability analysis reports and design critiques during production

UX Designer, Kiwi (Academic Project at Kennesaw State University)

October 2023 - December 2023

- Produced a hi-fi prototype for an AR application designed for the Apple Vision Pro
- Utilized Lean UX methodology to deliver MVPs and prioritize forming and testing hypotheses in a short timeframe
- Owned the user journey for navigation assistance within the application
- Spearheaded prototyping the interactive, dynamic map interface
- Moderated usability test sessions and recruited test participants

Lead UX Designer, Ladle (Academic Project at Kennesaw State University)

January 2023 - May 2023

- Led team of 4 IAD students to create a hi-fi prototype for an iOS application
- Planned usability test format, data collection tools, and moderator script
- Formulated research report on culinary behaviors in young adults
- Managed the design process following goal-directed design methodology

Operations Manager and Inventory Specialist, Dancing Goats

December 2024 - Present

- Lead and support team of 6-7 in a fast-paced environment
- Organize team training and communicate individual updates to senior management
- Oversee data collection to update metrics aimed at achieving productivity goals, lowering cost per unit, eliminating errors, and ensuring exceptional customer service
- Manage stock levels to optimize ROI and quality assurance of agricultural products

Sales Lead, Vans

July 2020 - May 2022

- Directed employees on daily sales operations
 - Developed and coordinated direct sales training curricula for 10+ employees
 - Achieved monthly sales quotas by 120-160% regularly
-
